

Name: _____

Date: _____

Birthday Party

Directions: Use the results of the pie chart to answer the questions below.

Sam is turning 11 years old and needs to decide what to do for his birthday party. He asked his classmates for their opinion and added their ideas to the pie chart.

1. What type of birthday party is **most likely** be picked? _____
2. What type of birthday party is **equally likely** be picked? _____
3. What type of birthday party is **least likely** be picked? _____
4. What type of birthday party is **impossible**? _____

Directions: Think of a new question to survey the class such as, favorite color, best sport, type of pets, etc. Ask your classmates then create a pie chart on the back of this paper and discuss your findings with the class.
